## Cowley Happenings

The "grippe" is going the rounds again.

Hugh Pettit has returned from a visit to Spokane.

Mrs. H. McLaughlin was a business visitor to town on Monday.

Mr. Galsal left for Victoria on Friday night, via Calgary.

Mrs. J. L. Parker, of Lee's Lake, was a Cowley visitor on Monday.

Mr. and Mrs. Powlett have moved onto the J. G. Swinney ranch.

Mrs. Dodson and sons have returned to Cowley to spend the winter.

G. W. Buchanan and family have moved to Calgary to reside for the winter.

Mrs. John Kemmis and her two daughters are visiting in Spokane at present.

Miss Minnie Bannerman is paying a visit to the McLaughlin ranch at present.

Miss A. M. Johnson has gone to England. She intends to have a try at munition making.

Mrs. H. D. McMillan has returned from Fernie, where she has been visiting for the past few weeks.

R. Alexander left for Ontario on Wednesday night's train, where he intends visiting relatives for some time.

Mrs. Howie is much improved in health. Mr. Howie has gone to New Jersey to attend the annual meeting of the employees of the Osborne Company.

R. C. Jamieson, late of the Union bank, Cowley, left on Friday night to visit friends at Melita, Manitoba, before joining his battalion, the 181st.

Thomas Fredale and family have recently moved to their ranch below Lethbridge. They went overland, driving over one hundred head of mixed stock.

Mr. Peel has been advised by cable that his son's injured knee has been "top-rated" upon successfully. He has been anxiously awaiting news for some time.

J. F. Swinney, of Guilford, Montana, was the guest of Mr. and Mrs. Murphy a few days this week. Mr. Swinney intends visiting relatives at Fishburn for some time before returning home.

If a baby is born, if anybody dies, if you have a special visitor, if anybody takes a trip, if anybody moves, if a fire occurs, etc., please hand a note of it to the postmaster and it will be inserted in the local items.

After spending two weeks with Mrs. Murphy, Mrs. J. G. Swinney and Miss A. R. Swinney left on Saturday to join Mr. J. G. Swinney at Sand Point, Idaho, where they intend making their future home.

Miss Emily Johnson and Harold Hanson journeyed to Calgary, where they were united in marriage. After spending a few days in that city, the newly-wedded couple returned home. Mrs. Hanson left the latter part of this week to pay a visit to her kin's people at Tremont, Nebraska.

In honor of Miss Marie Walker, whose marriage is to take place shortly, a pleasant gathering was held at the home of Mrs. P. H. Brooks, 904 6th Avenue, on Tuesday evening when the guests gave the bride elect a linen shower. The reception room was prettily decorated with mauve and yellow chrysanthemums and greenery, while yellow mums were used in the arrangement of the table, from which the refreshments were served.—Lethbridge Herald.

All who knew Ernest Parker will learn with regret the sad news of his sudden death. He was killed on Saturday morning in a collision near Lethbridge. Ernest was raised in this vicinity, all but a few years of his early life, which were spent at Macleod. He took

Wild of eye, a man burst into a barber's shop.

"You remember selling me some patent hair restorer last week, you hoary-headed old wendler?" he roared, angrily. "Sure it would restore my hair to its original state, didn't you?"

"And didn't it?" asked the barber, as he went on shaving another customer calmly.

"Didn't it?" snorted the enraged man.

"You obtained my money under false pretences. Why, it even removed the little hair I had left, and now I'm bald as the pavement!"

"Then there's no false pretence about it," said the barber. "I said it would restore your hair to its original state, and you know, sir, most of us are born bald!"

## In Time of War Prepare for Peace

Sir George Foster Urges Canadians to Prepare for Future Work

That Canada and the whole Empire should prepare for peace conditions in the same manner that they prepared for war was the argument prepared by Sir George Foster, Minister of Trade and Commerce, before the Canadian Club of Montreal.

Sir George gave an address full of ideas and details, his concluding advice being that the whole people should unite in work for peace conditions, to meet the emergency phases of life that would be evolved, just as they had united to produce men and materials for war. His main idea was that the whole country must organize then to produce, and produce for useful ends, just as it had organized now for destructive ends, and to this end he appealed to the business men of the country to unite patriotically for the general good. He argued that with the changed conditions after the war only increased production could meet the situation—mere "swapping" in trade would do it, nor would the making of

money in brokers' offices, or the criminal boosting of real estate. It was only the real production of real values from the inviolable resources of the country that could save the situation.

Sir George pointed out that when peace came there would be hundreds of thousands of Canadians returning from the front, and it was imperative that they be taken care of, while very many of these would be untrained, to meet the emergency.

With between thirty and forty millions of soldiers engaged in destruction and materials for war, the world's wealth, the terrific expense of keeping them up, the broken-up conditions caused by such work, Sir George argued that every condition of life would be changed when the war was over, and peace once more reigned, and it was time people realized this.

Mr. Foster gave freely and generously for war, he concluded, "Prepare to give just as usefully in the works of peace."

## Believes She Was Saved From Stroke of Paralysis

All One Side Was Cold and Powerless When She Began Using Dr. Chase's Nerve Food

A dead nerve cell can never be replaced. In this way it is different to other cells of the human body. But feeble, wasted nerve cells can be restored, and herein lies hope.

In this fact is also a warning to take note of such symptoms as sleeplessness and loss of energy and ambition, and restore the vitality of the nervous system before some form of helplessness results.

Nervous prostration, locomotor ataxia and paralysis are the natural results of neglecting to keep the nerves in healthful condition. The case of Dr. Chase's Nerve Food when you suspect there is something wrong will soon restore vitality to the nervous system, and thereby prevent serious developments.

Mrs. Merritt Nichols, R. R. No. 3, Dundalk, Ont., writes: "I take pleasure in writing to tell you the great benefit I have derived from the use

of Dr. Chase's Nerve Food. I was so nervous I could not sleep, and found it hard to get my work done. I was also very tired, and in the time, had to do the best I could. Finally my left arm became powerless and cold, and this continued to get worse until my whole side was affected. I decided to try Dr. Chase's Nerve Food, and the first box helped me so much that I used several, and believe that I was restored to health. I have been a paralytic stroke. It has built me up wonderfully, and I can recommend it most heartily, believing that if more Nerve Food were used there would be much less sickness."

Dr. Chase's Nerve Food cures in nature's way by nourishing the feeble, wasted nerves back to health and vigor. Fifty cents a box, all dealers, or Edmondson, Bates & Co., Limited, Toronto.

### Modern Piety

Dick and Jimmy were visiting their grandmother. One night when they were saying their prayers Jimmy voiced his petitions for Christmas presents in a tone that could be heard a mile.

"Why do you pray for your Christmas presents so loud?" interrupted Dick. "The Lord ain't deaf."

"No," whispered Jimmy, "but grandma is."

### CHILDREN OF ALL AGES

When sick the newborn babe or the growing child will find prompt relief through the use of Baby's Own Tablets. They are absolutely safe for all children and never fail to banish any of the minor ills from which little ones suffer. Concerning them Mrs. Arthur Sheasly, Adanac, Sask., writes: "I have used Baby's Own Tablets and think they are splendid for children of all ages." The Tablets are sold by medicine dealers, or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### The Farm Home

To Make Farming a Success and Life on the Farm Possible

A time will come when enlightened farmers will realize that the farm household is the source of all energy, enterprise and intelligence that makes farming a success and life on the farm possible. It is the indefatigable farmer's wife that makes the farm home; altogether too often she makes it a real home in spite of her husband rather than as a result of his co-operation with her. He, to his shame be it said, too often has by far a greater appreciation for hogs, cattle, grain and hay and their proper housing and care than the equipment and environments that make practicable the proper rearing of his own children. Yet he will complain that the young people will not stay on the farm.—American Lumberman.

These pills are specially compounded to combat dyspepsia and the many ills that follow in its train, and they are successful always.

**Their Moderation.**—"I am sorry to observe," said the presiding elder, "that your children wear indiscriminately." "Aw, it ain't as bad as all that, parson," replied Mr. Gap Johnson of Rumpus Ridge, Ark. "They don't dress much unless they are hurt or want to show off or something that-a-way."—Kansas City Star.

### Quality of Wheat

Why Hard Wheat Is Always Preferred by Millers

Millers prefer wheat that is hard and shiny to a wheat that is made up of kernels that are white and starchy in cross-section. Kernels of the latter type are softer and more easily crushed and are spoken of as "soft" wheat. A considerable reduction in price is often made when this "soft" wheat is offered for sale.

Dr. W. P. Headen, of the Colorado Agricultural Experiment Station, has succeeded in determining the cause of this trouble and also the remedy, which every farmer can supply.

In brief, the cause of "yellow-berry" is high percentage of potash in the soil in proportion to the available nitrogen. The remedy is to keep the nitrogen contents of the soil as high as possible without increasing the potash. This may be done by the addition of nitrate, the rotation of crops in which alfalfa or some other legume is used, and by proper tillage.

### Good Country Roads

Possible Misuse of the Road Drag Is Pointed Out

It is possible to have too much use of a good thing, and easy to use a good tool in a wrong fashion. This is what has happened in Iowa, where the road drag has been used so thoughtlessly that the surfaces of some roads have been dragged to a dangerous peak. The centre of the road has been built up too high for safety or comfort. A high crown and steep sides create a double danger. It is a case of self without judgment. The misuse of the drag cannot be held against that valuable implement of surface preservation by its systematic employment. The Iowa State Highway Commission disclaims responsibility, as it is without authority in such local administration. It suggests complaints from travellers to the dragger or the road superintendent, the county engineer or supervisor. Of course the water will run off the more readily the steeper the sides of the road, but so will vehicles. The ditch is the place for the water, but not the wagons or cars. It is easy to get the crown too high, just as it is to get it too low. It is all in the operator, and the operation is simple enough when horse-sense is used.—The Breeders' Gazette.

**Two Kinds of Peace**

Peace Talk in Germany and in Great Britain

During the past month or two there has been a great deal of talk about peace in high quarters in England as well as in Germany. But between the things that have been said in England and the things that have been said in Germany there is a sharp contrast in two essential respects.

In the first place, what the German statesmen are saying is that it is upon the possibility of bringing the war to an end by coming to terms with their enemies in one way or another without fighting the war out to the bitter end; whereas the English statesmen are saying that their resolution to entertain no proposals of peace except such as would be predicated on the decisive defeat of Germany. And accordingly, the man preoccupation is wholly with the question of the ending of this war, and not with the question of the prevention of future wars except in so far as this may be implied in the demands of terms of peace, which shall leave Germany's mighty state, fully capable of defending itself against the possibility of a new campaign, under which, through some form of international co-operation, a repetition of the present calamity that has befallen the world will be made impossible.—N. Y. Evening Post.

## Marconi Has New Findings in Wireless

More Practical and Useful Method of Communication

Marconi, in an address before a gathering at Rome, which included the Duke of Genoa and the elite of scientific, literary and aristocratic circles, roused the enthusiasm of his hearers when he said that wireless telegraphy had rendered magnificent services to Italy and her allies in the war.

He regretted that it was impossible, for obvious reasons, to explain as fully as he would have liked to do, the progress made during the last two years in radio telegraphy, but he described problems that are still unsolved—such as the origin, nature and means of dominating those natural disturbing waves known as "intruders"—which he has been studying and experimenting with.

He expressed the conviction that he would soon be able to announce means of communication more practical and economically useful to mankind.

"Well—Here's a joke heard last week in Boston and as it concerns the Intercolonial Railway, perhaps people living along that line would also appreciate it, therefore it is herewith told again. A car was standing in the freight yard in Boston and two tramps walking along spied the initials C. G. R. (meaning Canadian Government Railway) and on one end of the car. Of the tallest of the tramps the shortest asked, 'what do 'd m letters me'n?' The tall fellow replied, 'Can't get rotten,' and we wonder if the tramp ever travelled
